Richpeace Automatic Perforation Machine

Max. working speed: 800 holes / min.
Perforation head No.: 1, 2, 3, 4 heads available.
Hollow type perforation needle, easily remove the leather waste.
Round perforation needle, size: 0.8mm 1.0mm 1.2mm 1.4mm.
Use special perforation machine head and needle bar assembly.
QR scanning function. Any patterns can be selected, improve working efficiency.

Machine features

- 1, Use special perforation machine head, needle bar assembly and special needle bar reciprocator. Hollow type perforation needle bar, easily remove the leather waste to avoid waste falling and dispersing.
- 2, Use special hollow type perforation needle, easily remove the leather waste. Round needle size: 0.8mm, 1.0mm, 1.2mm, 1.4mm.
- 3, Equipped with ribbon film automatic changing device. It can change the film automatically, and change speed can be adjusted to ensure the perforation precision and extend the perforation needle service life.
- 4, Max. working speed: 800 holes / min. Perforation head No.: 1, 2, 3, 4 available.
- 5, Use big power industrial vacuum pump to keep the cleaning work.
- 6, Equipped with automatic oiling system (machine head), QR code scanning function, and ribbon film breakage detective function.

Application

Suitable for car seat, foot mat, aerospace seat, home furniture, sports shoes, leather shoes, leather coat, leather bag, and etc.

Machine configuration

【 Automatic Ribbon Film Changing Device 】
Ribbon film changes automatically to ensure the perforation precision and extend the perforation needle service life.

【 QR scanning function 】 Any patterns can be selected, improve working efficiency.

【 Richpeace Electronic Control System 】
Machine runs more effectively, higher perforation accuracy and stable products.

【 Hollow type waste remove device 】
Leather waste will be removed from the middle of the perforation needle to ensure the perforation work efficiency.

【 Industrial vacuum pump 】 Remove the leather waste effectively.

【 Three-layers frame device 】 Tight the leather material to ensure the accuracy of perforation work.

Machine Specification

Model	RPCE-L-P-4-1200X800-B-P3-0-NA-3P380
Working area(X*Y)	1200X800mm
Max. working speed	≤800holes/ min
Stitch length	0.1-12.7mm
Perforation needle type & size	Round type (size: 0.8mm, 1.0mm, 1.2mm, 1.4mm).
Input Power	Three-phase 380V/50HZ
Machine power Air pressure	15.0Kw, 0.6Mpa
Machine installation area	8253*2570*1650mm
