RICHPEACE Laser Engraving Cutting machine special for Packing box

High precision of equipment, The error is less than 0.01mm.

Engraving software can directly connect with AutoCAD, CorelDraw, AI, clothing CAD and other software seamlessly.

RICHPEACE Laser Engraving Cutting machine special for Packing box

RPLC-NM-N-1-1300X900-C-SL-CGC80W-ZIH-1P220V

Features

1. High precision of equipment, The error is less than 0.01mm.
2. Special laser tube chiller can ensure good carving effect and extend the working life of laser tube.
3. Engraving software can be directly connected with Auto CAD, CorelDraw, AI. Clothing CAD and other software seamlessly to achieve the original image output.
4. Advanced color management, support multiple color output at one time.
5. 128M large capacity memory can store multiple job data, and supports USB hot plug and write.
6. Support graphic formats: BMP, GIF, JPEG, PCX, TGA, TIFF, PLT, CDR, AI, DXF, DST.
7. Laser cutting machine double head mutual movement model can realize the full use of materials, reduce the waste of materials, the space between the two cutting head can automatically adjust the space according to the size of the cutting graph, flexible multi-face, can also be manually assigned work area.

Application

Suitable for laser scanning code, knife die processing, carton printing rubber plate laser carving, wood gift box LOGO carving, paper packaging box personalized customization and proofing, adhesive paste paper cutting, etc.

Configuration

Double blowpipe setting can disperse the smoke in laser head more quickly, protect optical components to a greater extent, and extend the service life of laser head.

The upper and lower smoke exhaust fans can work together to rapidly exhaust smoke.

Famous brand components, stable output, long service life, can cooperate with the control system to operate the machine.

It has the function of over temperature alarm, flow protection, water level protection and other safety alarm to ensure the normal operation of the equipment under high temperature and humidity.

The built-in hopper can quickly collect cutting waste and facilitate subsequent machine cleaning.

Guide module, easy to assemble, easy to maintain and dust. Longer service life; Stable operation, faster speed, high positioning accuracy.

Parameter

| | |
|-------------------------------|---|
| Model | RPLC-NM-N-1-1300X900-C-SL-CGC80W-ZIH-1P220V |
| Laser Type | Domestic sealed CO ² glass laser tube |
| Laser Power | Domestic glass laser tube 60w/80w/100w/130w/150w Enhanced 80w/100w/130w/150w |
| Working Area | 600mmX400mm, 900mmX600mm, 1200mmX600mm, 1400mmX800mm, 1300mmX900mm, 1500mmX900mm, 1600mmX1000mm, 1900mmX1000mm |
| Power Supply | AC220V/110V±10%,50Hz |
| Cooling Way | Water cooling |
| Standard Configuration | Laser water chiller, 550W smoke exhaust machine, Micro air compressor |
| Optional Configuration | Fixed spacing common double laser head, mutual shift double laser head, automatic feeding device, infrared positioning system, left and right push-pull working platform, camera positioning and cutting system |
